Join us at any of these three locations and dates for these potentially life-saving screenings from your trusted, local health care team from Grande Ronde Hospital. We will mail your results or send them electronically to your MyHealth online personal health record—your choice!

**** We are only able to draw 100 people in each location.****

9-12 hour fast prior to the draw is needed for optimum test results.

Providing tests allowed by Oregon State Law without a physician's order.

We recommend you share your results with your doctor.
